| Webpage_TC_001 | UI           | Home Page | Verify the user is able to view the page                   | 1. Latest web browser<br>2. Proper Internet Connection  | 1. Enter the url of the website and click go<br>2. Verify the webpage is loading or not  | no test data required               | The webpage should be visible to the user  | The webpage is visible                                      | Pass   | The test case passed without any issues   | Y                      | 1      | Varoon K        |
| Webpage_TC_002 | UI           | Home Page | Verify the page is responsive for all devices              | 1. Mobile device<br>2. Desktop device<br>3. Tablet device<br>4. Webbrowser and internet connection                          | 1. Enter the url of the website and click go<br>2. Verify the webpage is loading properly with proper alignments in all the devices                | no test data required               | The webpage should be visible to the user  | The webpage is visible in all the devices                   | Pass   | The test case passed without any issues   | Y                      | 2      | Naresh Gupta G  |
| Webpage_TC_003 | UI           | Home Page | Verify the UI elements in upload work                      | 1. Latest web browser<br>2. Proper Internet Connection  | 1. Enter the url of the website and click go<br>2. After the page loaded Successfully click the upload button                                      | Sample Species's images for testing | The webpage should accept the image from the user                                      | The webpage accepts the user input                          | Pass   | The test case passed without any issues   | Y                      | 3      | Priyadharshan S |
| Webpage_TC_004 | UI           | Home Page | Verify the page is responding for every user action        | 1. Latest web browser<br>2. Proper Internet Connection  | 1. Enter the url of the website and click go<br>2. Verify the webpage is loading and working properly during the upload and reset                  | Sample Species's images for testing | The webpage should be stable during the upload and predicting procedure                | The webpage is responding stably                            | Pass   | The test case passed without any issues   | Y                      | 4      | Naveen Kumar S  |
| Webpage_TC_005 | UI           | Home Page | Verify the app accepts only image formats                  | 1. Latest web browser<br>2. Proper Internet Connection  | 1. Enter the url of the website and click go<br>2. After page loading try to upload non image formats such as pdf, xml, or any audio or video file | non image data                      | The webpage should reject the user input and navigates to the home page                | The webpage navigated to the home page ignoring the request | Pass   | The testcase passed without any issues  | Y                      | 5      | Naveen Kumar S  |
| Flask_TC_001   | Functional   | Flask app | Verify the flask app use the saved model                   | 1. Latest web browser<br>2. Proper Internet Connection  | 1. Enter the url of the website and click go<br>2. Verify the webpage is accepting inputs and predicting according to the category of the animal   | Sample Species's images for testing | The webapp should predict the animal properly  | The webapp predicts the animal accurately                   | Pass   | The test case passed without any issues, but it requires more dataset to predict the animal accuretly     | Y                      | 6      | Priyadharshan S |
| Flask_TC_002   | Functional   | Flask app | Verify the uploaded image saved on the server              | 1. Latest web browser<br>2. Proper Internet Connection<br>3. Storage in the server for storing the uploaded image           | 1. Enter the url of the website and click go<br>2. After page loading try to upload the image and wait   | Sample Species's images for testing | The website should accept the image data and save it locally on the server             | The app stored the image successfully                       | Pass   | The testcase passed without any issues, But storage will be a issue in future when the storage overflowed | Y                      | 7      | Varoon K        |
| Flask_TC_003   | Functional   | Flask app | Verify the uploaded image can be retrived from the storage | 1. Latest web browser<br>2. Proper Internet Connection<br>3. Storage in the server where the uploaded image can be retrived | 1. Enter the url of the website and click go<br>2. Verify the webpage is accepting inputs and predicting according to the category of the animal   | Sample Species's images for testing | The web app should be able to store and retrive the image that is uploaded by the user | The app retrived the image successfully                     | Pass   | The testcase passed without any issues.   | Y                      | 8      | Priyadharshan S |

|              |            |           |  |  |   |                                     |   |                                 |      |  |   |   |                |
|--------------|------------|-----------|--|--|---|-------------------------------------|---|---------------------------------|------|--|---|---|----------------|
| Flask_TC_004 | Functional | Flask app | Verify the app redirects to the output page which shows the classification and description of the image from the stored excel file | 1. Latest web browser<br>2. Proper internet connection<br>3. Sample Species's images to test | 1. Enter the url of the website and click go.<br>2. Verify the page is redirecting to the output page | Sample Species's images for testing | The web app should classify the species and get the description of the same using the excel | The app redirected successfully | Pass | The testcase passed without any issues | Y | 9 | Naresh Gupta G |
